For \$1.95, \$2.95, \$3.95 and \$4.95

Our stock of Women's Summer Dresses is now complete

It is the most extensive and comprehensive range of Women's Dresses we have ever shown. Prices are from \$2.95 to \$58.50, and each garment at \$13.50 and higher is an individual, exclusive, up-to-the-minute model without duplicate in material or color, and even many at \$6.95 and \$8.50 are not duplicated. Please ask to be shown as we do not display in our windows or even on the floor our most attractive and exclusive models.

One of the Novelty Dresses of this Season is a Heavy Black Crepe, made absolutely straight with small stand-up collar, heavily embroidered, set-in sleeves of black which come to the elbow, then an embroidered puff sleeve on a tight band at the wrist completes one of the newest sleeves. On either side are pleated drapes with a band of embroidery on the bottom.

Beautiful Dress of Golden Brown Vella Vella, in drop-stitch effect; round neck; three-quarter length sleeves; with cuff faced with crepe de chene. Narrow strap down one side. The skirt is plain with a wide band fastened at one side with large novelty button.

Sand Canton, made in very simple style, plain bodice with short sleeves; round neck. The skirt is box pleated. A narrow belt faced with brown is fastened to the waist and ties on the back.

Brown Crepe de Chene—Small yoke of drawn work with two clusters of pin tucks back and front. The sleeves are short and are finished with two rows of drawn work. The belt consists of a number of rows also. The skirt has the pin tucks, the same as the bodice. Around the top of the hem is one row of drawn work. A very simple but dainty dress.

Beautiful Little Dress of Sand Canton, with small collar and V-shaped neck; short sleeves, with pointed cuff, fastened by two little rosettes of bronze; gathered round the waist and finished with a number of bronze flowers. On one side is a cascade.

Navy Blue Canton, long-waisted, short sleeves, round neck with small white buttons as trimming; narrow tie belt; accordion pleated skirt. Around the top of the skirt are white buttons. There is a small cape on the back and is fastened under the belt.

Black Satin Dress, plain bodice with small blue buttons down the front. The skirt is quite full, gathered at the waist with blue canton crepe around the bottom, trimmed with three rows of black velvet. The collar and sleeves are of sand georgette, edged with ecru lace and are attached to a separate waist of white net.

American Crepe Dress in toast color; plain top; short puff sleeves; round neck. The skirt is gathered quite full and has two tucks in it. Around the waist is narrow belt with blue ribbon and fastened by a blue buckle.

Brown Figured Voile Dress with round collar, bound with two rows of white tape. The short sleeves are also bound with tape; wide sash tied in the back. The back is trimmed with six frills which adds a very tasteful finish.

Blue Voile, with four deep frills around the bottom; large oval collar bound in white; small tie belt.

Yellow Check Voile, three rows of lace around the neck and sleeves; three deep frills edged with lace on either side.

Summer Dress of Coral Beach Suiting, with embroidery on cuffs and pockets; short sleeves; square neck; narrow tie belt. A very dainty dress.

Sand Beach Suiting Dress, with pointed collar, finished with white silk braid and buttons and black tie; short sleeves with detachable cuffs; long waisted; two frills across the front bound in white.

Two-piece Dress of Pale Yellow Beach Suiting. The coat part is quite long with a leather belt; small set-in pockets; short sleeves, with turned-up cuff; round Peter Pan collar. The skirt is gathered into a white waist.

Dotted Navy Foulard, short sleeves, small yoke with two inverted pleats on either side, narrow belt buckled in front, lace collar.

Yellow Plaid Gingham Dress, with embroidered white organdie collar and cuffs; short sleeves; narrow tie belt. A very dainty little dress.

Blue Plaid Gingham, with the long lines, square collar of white organdie, short sleeves and white organdie cuffs; small tie belt.

Black and White Check Gingham—Very simple and cool frock with short sleeves, open part way up. Small round blue chambray collar with black tie. Blue pockets bound in the gingham; gathers at the side; narrow belt tied in the back.

Black and White Plaid Dress for street wear. Very prettily made, with elbow sleeves, with small white cuff; patch pockets also trimmed with white; long scalloped collar bound with the pique, and with the white pique V-shaped vestee finished by three small black buttons; wide sash tied in the back.

Pink Gingham Dress, with a very small check; short sleeves with white pique cuffs, white Peter Pan collar and vestee. Two small frills add a most charming effect. Wide sash tied in the back.

Orange Gingham, with white stripes forming a check; long collar coming down to the waist in front with organdie trimming; square neck; front of orange gingham. The panel effect is carried out on the skirt in the front, too. A dress suitable for afternoon wear.

Green Gingham in Check Pattern; short sleeves; rather long collar; scalloped edge; V shape dickie of white pique. The skirt is gathered at the waist, and has two pockets trimmed with pique. Mauve Check Gingham, made plain with mauve chambray around collar, and fancy patch pockets; small tie belt gathers on the hip.

Navy Blue Georgette, long-waisted effect, embroidered with steel beads in front. In the back are two pleated straps, attached to a small yoke, and hanging loose at the waist. Round neck; short sleeves; wide belt edged with silver ribbon and has fancy tucking. The skirt is gathered and has a pleated drape on either side.

Dress of Black Canton Crepe, made on the perfectly straight lines; short sleeves; round neck; narrow tie belt. It is beautifully embroidered with silver beads in long designs, from the neck to part way down the skirt, with a band of embroidery of silver beads and blue silk chain stitching in exquisite design around the bottom of the skirt.

Cream Voile of very fine texture, made plain with a few gathers on the hip. Beautifully embroidered around the neck, sleeves, waist and skirt with French knots of heavy silk. This is one of the French hand-made dresses and the workmanship is exquisite.

One of the most charming dresses in our stock is made of Lemon Voile, with beautiful blue, hand-painted flower designs and white French knots. Has a round neck, short sleeves, and gathered at sides. The narrow sash is tied at the side. A dress anyone would be proud to have.

Black Georgette, bloused at the waist and the skirt—draped in pleats by gathers, and finished with 2 long narrow straps heavily embroidered with steel beads. No sleeves; round neck; 2 straps over the shoulder. Silk slip is attached.

Black Georgette; round neck; medium sleeves; small tie belt. Exquisitely finished with small round steel beads and grey silk floss. This is another of the French models, and is even above the usual high standard of French work.

Two-piece Dress made of Heavy White Canton. The blouse is long and gathered into a band of flame canton; short sleeves with flame cuff. The collar and front inset is also of flame. The skirt is fancy pleated and attached to a white silk top. Around the bottom is a band of flame, making it a very smart dress.

Another beautiful French-made Dress of Grey Georgette, made on the straight lines and embroidered in silver beads. It is genuine French-made and has all the charm that the name implies.

Anyone desiring a dress suitable for either afternoon or evening would be delighted with this Dress of Grey Georgette, exquisitely embroidered in colored beads in the form of flowers on the front and on the little cape at the back; short sleeves, with scalloped edge, trimmed with two rows of beads. The skirt is quite elaborate, consisting of a number of frills and a panel in the back, embroidered in the flower designs at the bottom.

Light Check Gingham with two small frills on the skirt; short sleeves with white pique cuffs and Peter Pan collar with small black bow. The front is very pretty with a set-in shaped vestee with buttons on either side.

Small Pink Check Gingham Dress with white organdie collar and cuffs, and square front. Skirt is gathered at the waist and is finished with three rows of organdie set in part way down. A dainty little frock for street wear.

Brown Check Gingham Dress with pointed collar, edged with white organdie; medium length sleeves; two patch pockets; inverted pleat of organdie down the front which gives added width to the skirt.

Blue Ratine Dress, rather straight lines with large white ratine collar embroidered; set-in front of blue; short sleeves with white cuffs; narrow tie belt.

Grey Ratine in Clouded Effect; pleated roll collar with orange silk ties; open work in orange adds a most charming appearance to the bodice. Two small belts bound in orange and buckled at one side; sleeves are medium length, trimmed with a suggestion of orange and three silver buttons. The skirt is rather full. A lovely frock for any time or occasion.

Ratine Dress in Canary Yellow in the wrap-around style; belt across the back and fastened at one side with a large novelty buckle. The sleeves are loose and bound in black, round neck with small square collar in back. Another very useful dress.

Charming Little Summer Frock of Begonia Voile, with round collar of white organdie, bound in pink; short sleeves with small organdie cuff; drawn work on front; elastic at the waist and a small sash tied at one side. The skirt has drawn work on one side and round the bottom. A very dainty dress for summer.

Two-piece Dress—Blouse of fancy blue tricolette with a wide band shirred at either side; practically no sleeves. V-neck bound in sand crepe de chene. The pleated skirt is sand crepe de chene attached to a separate silk top.

Another Two-piece Dress, with blouse of fawn canton, beautifully embroidered, especially on the wide band at the bottom. The skirt is henna, with a band of the fawn around the bottom and attached to a white silk top.

Dress of Brown Taffeta, with the bodice finished with side gathers and sand binding. The collar is quite large with a shawl effect bound in sand. Short sleeves on a separate waist. The skirt is full with pin tucks on the side and round the bottom.

One of the daintiest models is a Blue Canton Crepe, made on the straight lines with gathers at the side; narrow tie belt; short sleeves bound in white with small bow. The round neck is also bound in white with tie. Across the shoulder are three rows of open work of different length with tiny white buttons as trimming.

Yellow and Brown Striped Ratine, in check effect, with round collar made of several rows of lace. The bodice is plain with gathered skirt. Sash with picot edge tied in the back. Several rows of lace form panels on the skirt and the finishing touch is in the large rosette of lace with streamers of satin ribbon.

Coral Check Ratine Voile with two rows of lace insertion down the front of the bodice, which is exceptionally long waisted; small belt fastened at either side; round neck; short sleeves edged with lace. The skirt has three flares open at both sides with tiny pearl buttons. Narrow blue velvet ribbon bow with long streamers is fastened at the neck.

Dress of Blue Ratine, with square collar, embroidered in white and long V-shape front with embroidered dickie. The sleeves have deep flare cuffs. The embroidered ratine is also used for the skirt, completing one of the most delightful dresses.

Pink Ratine Dress with colored wool in large square patterns, small mannish collar. Short sleeve with small turned back cuff. The skirt is plain. Two large rosettes of colored ribbon are fastened at both sides with narrow bows of the ribbon reaching across the front. A small belt of the ratine is attached at the rosettes and tied in the back.

Fawn Dress of Soft Ratine with colored dots with fine lace yoke and lace down one side. A narrow velvet ribbon with small round pearl buckles add a very dainty finish to the lace. Short sleeves with lace cuff. The ratine in this dress is so soft and fine that it makes it one of the daintiest summer dresses.

Dress of Open Work Ratine in a large check, made on the straight lines with plain colored collar and cuffs; straps from each shoulder with large pearl buttons; fastened at the waist with the ends hanging loose. This would make an excellent dress for street or sport wear.

Mauve Ratine Voile in check pattern; small square collar and V-neck, with black taffeta ties; elbow sleeve with small flare cuff, two inverted pleats; the front forms a panel and widens at the bottom; narrow patent leather belt.

Henna Ratine, with black wool thread forming a large plaid; small collar. Short sleeves, with narrow, turned-up cuff. Two small rosettes of ribbon with twisted ribbon of the same colors joining them, is the only trimming. Narrow belt of self material is tied in the back.

Fawn Stripe Dress of Ratine Voile with the skirt and bodice in one piece; set in sleeves; front panel with stripes the opposite way. Narrow belt, fastened at one side of panel with small colored organdie flowers; two small pockets with ecru lace; small collar of ecru lace points and long narrow cape.

Red and Grey Plaid Ratine Dress will small collar, with one end continuing down one side to the bottom of the skirt. Medium sleeves; small set-in pocket; belt tied at one side.

Large Plaid Open-work Ratine, with elbow sleeves. Collar is continued down one side of dress to a few inches below the belt while the strap at the other side is fastened at the bottom and comes a few inches above the belt.

Nile Green Dress of fine crepe with a silk thread. Very simply made with the long collar on one side, the end of which is fastened inside the small set-in pocket; trimmed with beautifully embroidered organdie. The V-shape neck has a small vestee with organdie; short sleeves with the embroidered cuffs. One of the most exquisite dresses in our summer stock.

D. & A. Corsets

All women of today are thinking more and more of their comfort in connection with style. D. & A. non-rustable Corsets are fashioned to fit every type of figure; they lace in the back. A few of the most popular corsets in this line are:—

127—For the slender or average figure, made from strong, white jean. It is a well proportioned corset, low bust, higher in the back, skirt hooked in front, four hose supporters attached.

238, 239 is for an average stout figure desiring a medium bust, fairly long back, shaped at the hips, made of English coutil.

506—A very comfortable and serviceable corset of good heavy coutil, made with elastic around the top, front lacing below clasps.

D. & A. ELASTIC PANEL—The only "no lacing" corset with an "Aera Back" which allows the penetration of air quite freely.

503—Our model—is a pink "wrap-around" corset of mercerized cotton brocade and surgical elastic, rust-proof boning, skirt hooks in front, four hose supporters. A splendid corset for summer wear, and especially for sport.

"LA DIVA" CORSETS

Under the name of D. & A. Corsets there are several different lines, each with an outstanding feature. The "La Diva" line is super-boned which means filled with "Durabone", a spiral wire boning that insures permanency of comfort and style. It retains its original strength and springiness much longer than the ordinary steels.

692—A spiral boned corset made from pink coutil with flexible woven superbone steels in front; has elastic inserts in front of skirt, reinforced tear-proof front, elastic sections at the back, medium bust, high in the back.

4000—The stout woman will find this corset exceptionally comfortable, and it will give her a more slender appearance. It is an extra strong model made from white imported coutil, and boned with superbone which is flexible and rust-proof. Reinforced front, two skirt hooks.

4160—A low priced corset of pink coutil with elastic around the top; sides and back are double superbone steels; it is made with low bust, front lacing below the clasps, six hose supporters.

RADIO AND ITS USES

The first wonder of wireless telephony is now becoming exhausted. So many people have wireless sets of their own, or can use those of their friends from time to time, that listening is no longer the fascinating novelty it was at first. It remains nevertheless one of the greatest wonders that science has yet brought to the knowledge of mankind. That the feeble human voice with its natural range to human ears of a few hundred yards should be heard at distances of hundreds and even thousands of miles is a thing marvelous to a degree.

Solar the use of broadcasting has been somewhat limited. The average listener hears songs and musical pieces of very varying quality with occasional short lectures and speeches. As far as music is concerned, that which is heard over the radio is not as a rule equal to good gramophone records, and often is much inferior. It is very wonderful to sit in Red Deer and listen to the voice of someone in Mexico, but if the someone is merely singing "It Ain't Going to Rain No More," one's wonder is tempered by a feeling of boredom. If the gentleman in Mexico would only give a vivid account of the latest revolution then in progress how much more interesting it would be.

Again, fancy the excitement among the ladies of Red Deer if the radio gave a really expert description of the dresses worn that afternoon by New York's Four Hundred or the Toronto Smart Set. Similarly, if the Vancouver radio in winter could enable us in Sunny Alberta to listen to the hiss and purl of the rain and the coughing of the fog-laden Vancouverian, how much more cheerful we should feel. We might in return let them hear the croaking of our croakings when it is 40 below zero, and then they too would be pleased with their climate.

It has recently been suggested that the radio be used to keep the farmers in the lonely distant northern parts in touch with the markets and the ruling prices as well as with the general news of the world. That is an admirable suggestion. We ourselves some time ago suggested that radio might be used to keep remote districts, who have no other means of communication with the nearest center where a doctor lived, and so time might be saved in circumstances when time means life or death.

What is wanted in the use of radio is more imagination and more organization. The present stage of the broadcasting industry is no doubt an experimental one, but it seems to be rather lacking in ideas. Imagination is needed in science without more than in any other sphere. The radio people should set their imagination to work forthwith.

MAH JONG

A year ago the name of Mah Jong was practically unknown in Europe and North America. Now it is familiar to thousands and is growing in popularity so fast that it is expected to rival and perhaps to beat bridge in popularity.

The game originated in China, but at what date is not certain. Some say it is thousands of years old. Others hold that it dates from the great T'ang Dynasty, and others again say that it is not more than fifty years old. It is forbidden by law in China, presumably because of the gambling and time wasting, for which it can be made the vehicle, but, nobody in China plays the smallest attention to this particular law any more than they do to the optimum prohibition laws. The United States seems to have been the first Western nation to take up the game, which is natural in view of the numbers of Chinese and Japanese in the States. It has reached Great Britain and is becoming popular there too. It is now being played in our own city, and we have heard triumphant accounts of great success made in the game, and mysterious romantic references to the "East Wind" and such poetic figures.

At present there is considerable uncertainty as to the rules of the game. Quite a few books have been lately published on the subject, and some of them seem to agree exactly as to the rules. The game is intricate enough to make possible variations in the rules, and these variations will continue until the game has become sufficiently established to admit of variations being formed in order to standardize the rules. The same sort of thing has happened in other games such as football, of which there used to be quite a few varieties, until national associations reduced the rules to recognized standards.

Games of this kind play an important part in our social life, a part which may be healthy or unhealthy. They may set a deep mark on the mental and physical life of the nation. The British devotion to outdoor games has undoubtedly been of untold mental and physical life of the nation. Golf alone has done the utmost good by inducing elderly men to spend hours walking purposefully in the open air over more or less rough ground, when otherwise they would be loafing in clubs or driving about in motor cars. In the case of indoor games, the more modern, the more demerit they make on the intellect, the better they are likely to be, and in this respect Mah Jong certainly seems to be a bad thing, which has distinct disadvantages, as is evidenced by the superior supremacy in bridge playing of persons of wholly mediocre intelligence. It is possible that the reign of Mah Jong will be brief, as the reign of such games as Ping Pong was. If it really does demand a considerable amount of intelligent thinking, it is certainly not likely to be popular for long with large numbers of social butterflies, ancient or modern.

THE UNITED STATES AND HER DEFENCE FORCES

The United States recently had occasion to change its Secretary for the Navy. Mr. Willbur, the new secretary, in the course of the last fortnight has given his reply to a number of questions asked in Congress as to the state of the navy. The reply cannot be an encouraging one to Americans for it reveals the fact that the American navy is considerably below its rhetorical standard of efficiency. Of its submarines half are out of commission and useless for one reason or another. A new class of submarine

built in 1921 proved to be a failure and all the boats belonging to the class have had to be discarded. In contrast the States' considerably better Great Britain and also better Japan. The same class applies to aeroplane carriers. The battleships are in need of reconstruction, several of them being really useless, as they now are. The whole navy is said to be short of men and material. A bill asking for \$150,000,000.00 is the new Secretary's first action to bring the navy into proper condition, and in view of the heavy taxation already existing, and the additional taxation needed to finance the Solts' Bonus Act, this fresh demand for the navy does not come as a pleasant surprise to the American taxpayers, especially as they very generally believe that it is only owing to waste and corruption that the money already spent on the navy has not sufficed to keep it efficient.

The same condition of things exists in the American Air Service. The States spends on that service two or three times as much as France spends on her air service, but while France has large numbers of the best airplanes ready for action, the States is said to have few or no fully modern planes available, and is making shift to do with machines dating back to the close of the war and nothing like up to date. American papers are demanding an intelligible explanation of what has become of the money voted for and nominally spent on the air service. Whatever has become of it? It does not seem to have produced airplanes.

Attention has not been called lately to the state of the army, but the indications are that the same applies. The army and its organization exist mainly on paper only.

The average American is supremely indifferent to all this. He is angry at the waste of money. More angry still that he himself has not got a share of the millions wasted, but as to the actual work of his army, navy and air force, he doesn't see the very least care. He seems to pride himself on being superior to what he considers the curse of militarism, and the less he knows of drilling and discipline, the better he is pleased.

Yet, he is quite ready to approve of a Japanese Exclusion Act which insults to proud and wasteful race in the most unimpeachable fashion.

There is nothing new about this sort of short-sightedness in a people, but it is usually paid for very heavily in the end. The day may and almost certainly will come when the States will pay a tremendous price for their neglect of national war insurance.

THE DOMINION GOVERNMENT AND THE WORLD CRUISE OF THE BRITISH FLEET

If it is really true that the Dominion Government has refused to make any contribution towards the cost of the British fleet when it arrives at Vancouver in July, that refusal, as is shabby and disgraceful a thing as could well be done by any government in this country. Everywhere the fleet has gone on its great world cruise it has been welcomed and entertained. It has been recognized as the representative of the force which alone keeps intact the communities of the Empire and defends the vast seaboard states of all the "relics of the Empire. No qualification comes to the fact that it is the British fleet which defends the British Columbian coast and enables Canada to prevent the inroads of great numbers of Orientals. That Canada makes no contribution to the cost of the British navy, and maintains only the mere shadow of a navy of her own, has been often enough commented on with the reverse of pride, by self-respecting Canadians. It is possibly consistent with that policy for the Dominion Government to refuse to share even the cost of courtesy to the fleet on which it allows Canada to sponge for defence, but it merely adds emphasis to the unworthy character of the policy of the government which punishes its Conservatives may have their faults and shortcomings, but in matters of this kind it is impossible not to recognize the more manly and self-respecting character of Conservative policy. A mean and churlish economy of this kind is likely to be expensively damaging to the credit of the government which indulges in it.

W. E. LORD CO. HEADS CANADA

In the Canadian Weekly Newspaper Association bulletin, issued May 19th at Toronto, we notice the following item:

"In a recent bulletin, it was mentioned that The Shunco (Ont.) reported that in an issue four full pages from one of its local stores. The Red Deer (Ala.) Advocate reads along a copy of a recent issue also carrying four full pages devoted to the same matter. The Advocate's pages are even columns, 22 inches, so the honors are now held by The Advocate."

This refers to the four pages of the W. E. Lord Co. run in the Advocate a few months ago, and this was not all, because there was another set of editorial columns of the W. E. Lord Co. in another part of the same paper.

We publish this item of news to show that a Red Deer firm leads the whole Dominion of Canada in the matter of space taken in a weekly paper.

Further, we do not publish this item of news to boost the W. E. Lord Co., but to give honor to whom honor is due, and Red Deer cannot but be proud of a firm with such a record as to lead the whole of Canada in this

MAGIC BAKING POWDER

respect; and, incidentally, a kindly word regarding the enterprise and ability of our contemporary, The Advocate, in turning out such a tremendous advertisement.

We draw attention to the two-page ad. of the W. E. Lord Company in this issue of The News.

GEMS OF THOUGHT

The Word of God will stand a thousand readings; and he who has gone over it most frequently is the surest of finding new wonders there.—I. Hamilton.

The selfish man secrets more from his selfishness than he from whom that selfishness withholds some important benefit.—Emerson.

Grace and glory differ but as bud and blossom. What is glory but grace perfected?—John Mason.

To be ignorant of the lives of the most celebrated men of antiquity is to continue in a state of childhood all our days.—Plutarch.

Chance is always powerful.—Let your book be always open; in the pool where you least expect it, there will be a fish.—Orid.

Faith is the eye that sees Him, the hand that clings to Him; the receiving power that appropriates Him.—Woodbridge.

The body of sight are so dimmed, that one man's eyes are spectacles to another, to read his heart with.—Johnson.

Men are born with two eyes, but only one tongue, in order that they should see twice as much as they say.—Colton.

I know the Bible is inspired, because it finds me at greater depths of my being than any other book.—Coleridge.

The eye is the pulse of the soul; as physicians judge the heart by the pulse, so we by the eye.—T. Adams.

Love is angry, reconciled, content, think, appoint, and finally spend all things by their eyes.—Montaigne.

The highest earthly enjoyment are but a shadow of the joy I find in reading God's word.—Lady Jane Grey.

Find earth where grows no weed, and you may find a heart wherein no error grows.—Knowles.

"GOD, GIVE US MEN."

God, give us men;
A time like this demands
Strong minds, great hearts, true faith, and willing hands.
Men whom the lust of office does not kill,
Men whom the spoils of office cannot buy;
Men who possess opinions and a will,
Men who have honor—men who will not lie.
Men who can stand before a demagogue
And damn his treacherous flatteries
Without winking—
Tall men, sun-crowned, who live above the fog,
In public place, and in private thinking.
For while the rabble with their thumb-worm creeds
These men shall tread
Writings in selfish strife—
Lo, Freedom creeps,
Wrong rules the land, and waiting Justice sleeps.
J. G. Holland.

MOTHER'S BIBLE

I love it, the beautiful, dear old Book, as it lies on my stand as my study book.
With its promises sweet and its visions clear,
The beautiful, dear, "Old Book on the Stand."
"The mother's Bible"—this Book so dear—
On its leaves are traces of many a year.
With its words of wisdom, and its words of love,
But every page is a sacred page.

For her own dear hands turned them to and fro,
In the far-off years of the long ago.
Precious indeed is that Book Divine,
And precious memories round it twine.
And 'tis its covers are broken and worn,
And its pages soiled, and defaced, and torn,
It has done its work for a hundred years.
It has lifted our sorrows, and calmed our fears.

And the Chart by which mother sail'd out to sea,
Is certainly good enough for me!
Sailed out to sea with the sails all set,
And the light on her face, I can see it yet!
Radiant and sweet—as she sail'd away,
To the harbor safe of Eternal Day.
Do you wonder I touch with reverent hand
The beautiful, dear, "Old Book on the Stand?"
—J. Austin Shaw.

COLLECTING FARM STATISTICS

In conjunction with the Dominion Bureau of Statistics, the Provincial Department of Agriculture is now engaged in its annual enumeration of acres sown to crop and of their livestock throughout the Province.

Careful schedules upon which the farmers are asked to enumerate the wheat sown to various crops on their farms, and the number of livestock owned by them or sold and slaughtered during the past season, have been distributed by the Dominion Bureau in co-operation with the Provincial Department. These schedules have been mailed to secretaries of school districts, for distribution to farmers through the medium of the school teachers and school children, and through other mediums.

The co-operation of the farmers of the Province is earnestly solicited in this work. This enumeration is simply an agricultural stock-taking, and the statistics gathered thereby are reliable only insofar as the farmers give their co-operation, and provide accurate returns. Farmers need not fear that their returns will be used for income tax purposes. The returns are received and dealt with under secrecy, and the individual returns are not published, merely the resulting totals.

The schedules, when filled out by the farmers, should be returned to the school teachers or to the secretaries of the school districts, who will, in turn, mail them back to the Dept. of Agriculture at Edmonton. These schedules later are sent to crop districts and sent to the Dominion Bureau of Statistics at Ottawa for final compilation.

Farmers are asked to fill in the schedules as accurately as possible, and return them at the earliest possible moment. School teachers or secretaries who find the supply of schedules on them insufficient, may secure more by applying to the Department of Agriculture at Edmonton.

BROOKSLEY BEAMS

A very pleasant afternoon was spent at the school house on May 24th. About forty young people were present and indulged in races, games, etc., being served by the Club members.

At the next Club meeting, on June 12th, C. E. Spier will give a chess-making demonstration. Everybody welcome. Come and bring your movie-traps.

Mr. John Davis was on the sick list last week.

Mrs. E. Spier left for her home in Victoria, Manitoba, on May 28th, and is visiting relatives at Okotoks and other points en route.

THE NET OF NIPIGON.

"The charm of freshwater, the charm of mirror-like surfaces . . . and the sweet smell of the woods."

Like a flower escaped from a garden is the fish—like a flower escaped from a garden is the fish—the sea, to the sea-side of the Atlantic shores and to the salmon-runs of the Pacific. What are they doing inland, out of habitat, "fish out of water," as it were?

But when you chance upon the "inland net" of the Indian, wound around a crude wheel whittled out of saplings, something inside, some inner sense, speaks out saying: "This is the original. The Seacoast nets of America came here long after this. These threads are the Garden-of-Eden-time of this continent." And recent discoveries of fossil-skeletons are placing that period back much further than that 50,000 years to which we had become accustomed even if we couldn't understand or comprehend it.

The nets of Nipigon need no aid from men in order to write themselves as belonging to that class of simple things which appeal to the heart. When we happen on one of them in some clearing, its goosamer length thrown about the old whelk's throat it speaks to us with the same human touch as of some bright shawl.

What a vista of a world of the wild and free it conjures up. The "Twine" so inanimate written on the page of the Government's "Indian Allowance" becomes a thing of life, when you happen upon it changed by the handwork of the Indian into one of these inland nets. Nets of lightness of quality to complement the frailty and mobility of the dainty canvas which is the hyper-sensitive fishboat of this world of inland lakes and rivers.

Like some lace veil is this Old . . . Inland . . . Net! You feel you might take it in hand and make it a finger ring. Compared with it, how crude seems the coarse strength of tanned leather that is the herring-trap of the Atlantic coast. How rude and strong the thick gurnale and heavy timber, the long arc-sweeps of the fishboats that work the herring nets! These are fine paintings, jealously hung in their own charm . . . the charm of freshwater, the charm of mirror-like surfaces, the charm of the deep peace and the sweet smell of the woods.

What sort of world's work, someone murmurs, can be accomplished of these toy nets . . . more like feminine draperies than tools of an industry?

The filigree meshes wound about this old, weathered skeleton of a reel do not purport to be a Blue-Book of the immensity and range of the freshwater fisheries of Canada . . . they are immune to, as much as a point-finger of the hundreds of miles of lakes and rivers opened up to sportmen following the herring of . . . "the nets of Nipigon."—Victoria Hayward.

New Additions to Our Already Complete Stock ARRIVE DAILY Women's Sport Attire \$10.50 new and authoritative styles TO Flannel Sport Suits \$25.00 in one and two piece styles

The sport frocks that score these days is the flannel frock--perhaps because flannel lends itself, so admirably to straight price lines and simple sport styles. BOARD OF TRADE PICNIC TUESDAY, JULY 1 PYTHIAN SISTERS Institute Temple Unity No. 14, At Sylvan Lake

Organization Completed for a Big Day of Sport--Mr. J. C. Brazier, Chairman.

With an enthusiastic Chairman, and a capable and efficient Secretary and a live committee, the organization for the free picnic of the Red Deer Board of Trade was completed on Wednesday evening.

The picnic will take about the same form as the successful event of 1923. There will be amusement for all--baseball tournament for the teams of the surrounding district, horse races, foot races, Roman races, jumping, etc., and a big list of events for the kiddies.

Several districts have stated that they intend to bring in their ball teams and another successful tournament is assured. The Red Deer team will likely stage a game in the evening, and of course the Committee are arranging for a dance.

The matter of procuring a Band was discussed, but nothing definite done.

The following were elected to put over the picnic:

Chairman--Mr. J. C. Brazier.
Secretary--Mr. Geo. Muir.
Canvassing committee: Messrs. O'Brien, Gillespie, Fleming, Locke, O'Brien and Chas. Curwell.
Sports--Messrs. Brazier, Brown, Vanslyke, Patterson, Pederson and Norris.
Dance--Edis and Snell.
Publicity--Turnbull and Carswell.
Dining--H. H. Callender.
Finance--Wilson and Muir.

The Committee are planning to put over one of the biggest and best days of sport ever held here. There will be no admission charge to the grounds on grandstand and tea and coffee will be served free, but people must bring their own cups. With the support and co-operation of every citizen, July 1st should be a great day for the people of the town and district. It's a great get-together event.

A number of the ladies of Sylvan Lake and Benito met in the K.P. Hall at Sylvan Lake, Saturday May 24th, at 2.30 p.m. for the purpose of instituting a Pythian Temple.

The initiation of the candidates was very successfully carried through by the Sisters of the Red Deer and Leveille temples, assisted by Jennie E. Walworth, G.C.

Immediately following the initiation, the election and installation of officers was proceeded with and resulted as follows:

M.E.C.--Mrs. B. C. Learned.
E.S.--Mrs. H. H. Jamieson.
S.J.--Miss Elsie McKee.
M.T.--Mrs. Burr.
M.H.C.--Mrs. K. Pedro.
M.P.--Mrs. N. Duffield.
P.T.--Miss Caroline Burdick.
O.G.--Miss Ethel Holmstrom.
P.C.T.--Mrs. H. Staudinger.
S.P.C.--Mrs. A. L. Sturges.
Mrs. K. V. Learned was elected planter.

After the meeting a very appetizing supper was served by the ladies and was enjoyed by all present including a number of the Knights.

At 7.30 the meeting was again opened and Knights from both Sylvan Lake and Benito were initiated.

After the business part of the meeting was closed Dr. J. C. Walworth gave a talk on Pythianism, which was highly appreciated by all present. An enjoyable social hour completed the evening.

Meetings are to be held the fourth Thursday of every month.

M.D. OF GOLDEN WEST

The third regular meeting of the Council was held in the office of the M.D. of Golden West, No. 371, on May 17, all the members of Council and the Secretary in attendance. Meeting opened at 1.30 o'clock.

Moved by Councillor Stringer that, notwithstanding the fact that this meeting was called two weeks in advance of the date set at the last meeting, and that the date of the meeting was advanced at the request of the Department of Municipal Affairs for the purpose of appointing an assessor for the District, it is, however, hereby unanimously agreed that all the regular business that may come before the Council may be transacted at this meeting. This was agreed to unanimously.

Correspondence

The Department of Municipal Affairs advised on April 14 re change in the Tax Recovery Act 1922, whereby the period of redemption of lands under caveat for arrears of taxes would expire on the 15th day of December of the year following the registration of caveat. The Department advised on April 24 of amendments to the Supplementary Revenue and Municipal District Acts whereby an assessment of all municipal districts must be made before the year 1924 and be completed before September 1, and advised that an assessor be appointed immediately, letters under dates April 7 and 28 from the Hall Insurance Board were read.

Payne & Graham advised April 11 regarding the duties of municipal poundkeepers, and also respecting animals at large.

Hugh J. Duffield, of Calgary, and A. S. Stewart, of Lacombe, surveyors, wrote regarding any survey road work that might be required by the Municipality.

Donald Cameron, M.P.P., of Elnora, wrote on May 3 expressing a desire to meet the Council about the end of May. The Secretary replied giving date of the present meeting.

The Western Municipal News, Calgary, wrote sending cuts of filing cabinets. Consideration of same was deferred until a later meeting.

Emar Soderberg wrote April 12 asking for a seed grain loan for the spring seeding. The Secretary's reply by the date of the year 1924 and be completed before September 1, and advised that an assessor be appointed immediately, letters under dates April 7 and 28 from the Hall Insurance Board were read.

The C.P.R. tax agent of Calgary wrote asking for cancellation of tax for the year 1923 on the N.W. 15-38-5-S as the land had not been sold, and was not assessable that year. Moved by Stringer that cancellation of same be allowed. Carried.

Correspondence with the Soldier Settlement Board regarding ground fire on the S half of 20-38-24 was read and filed.

W. E. Trueman, Red Deer, sent itemized statement of the Hospital plebiscite costs December 8, 1923. Moved by Smith that the sum of \$32 be taken from the vote in this District be paid. Carried.

The Sawyer-Massey Co., the Western Veteran Publishing Co., and the Badale Press wrote letters covering advertising and publishing matters.

The Registrar, Land Titles Office, advised that caveats had been deposited respecting the S.E. of section 19 and the S.E. of 20-38-5-S on April 16, 1924, and that certificate of redemption was registered respecting the S.W. 22-38-27 on April 17.

The Lacombe General Hospital advised that Mrs. K. V. Learned had been admitted as a patient on April 25, and Miss Hilma Pastabak on April 29.

H. B. Macnall, secretary of the Red Deer Golf Club, appealed on behalf of the Club from the wild land tax assessment for the year 1923 on 70 acres, part of S.E. 18-38-24. The secretary was instructed to take up the matter of their liability for wild lands taxes with the Department of Municipal Affairs.

B. C. Learned, secretary of Sylvan Lake Local No. 26, U.P.A., wrote advising that at a regular meeting of the local held on March 5, a resolution was passed approving of the Municipality expending a sum of money at the discretion of the Council towards the building of a dam and fish screen at the outlet of Sylvan Lake.

J. D. Adams, Winnipeg, wrote May 6 enclosing their invoice for grade No. 8 (serial No. 788) at a price of \$1.00, payable \$25 on December 1 each year from 1924 to 1927 inclusive, with interest at 8 per cent. Moved by Stringer that the notes for same be completed by the Reeve and Secretary and forwarded to the Company. Carried.

The following accounts were presented, examined and found correct, and ordered to be paid: T. Armstrong, Div. 1, \$9.45; J. Benson, Council fees, Div. 2, \$15; F. K. Johnson, pound account, Div. 2, \$8.75; M. O. Neilson, pound account, Div. 2 and 4, \$29.70; Richardson Road Machinery Co., machinery, Div. 5, \$225; Provincial Training School, account, Shackleton, \$15; account, Schickler, \$15; The News Publishing Co., pound notices, \$5.70; Red Deer Advocate, pound notices, \$2.50; pound bylaws \$2.49; notices \$16.48; Badale Press, for transfer binder, \$7.35; Payne & Graham, legal expenses, \$10; Wortman's Compensation Board, \$39.49.

The Council next took up the matter of appointing an assessor. Applications were at hand in this connection. The following resolution was moved by Councillor Stringer and carried unanimously: That taking into consideration the qualification of applicants and salary required, preference be given to resident ratepayers of the Municipality.

Moved by Councillor Isaacson that the selection of an assessor from the applications qualifying under the above resolution be made by ballot. Carried.

On a ballot being taken, J. M. Craig, of Everts, was elected as assessor at a salary of \$600, to complete the work, and in addition \$4 per day for any days that it might be necessary to attend meetings in connection with the assessment.

Mr. G. W. Smith, M.P.P., and Mr. Almsworth, Government Road Engineer, were present and addressed the meeting. Mr. Almsworth addressed the Council at considerable length in regard to proper methods and tools for road construction and maintenance, with special reference to the expenditure of the Government grant to the Municipality for the current year, which he announced to be the sum of \$1695.

On a motion by Councillor Stringer, and with the unanimous consent of the Council, bylaw No. 22 for restraining animals from running at large in Divisions 2 and 5 was read, second and

Sending Money Away?

Those desiring to transfer sums of money to other countries will find it advisable to use Bank Drafts. They are the safest and most convenient medium for transferring money abroad, and the cost is moderate. Bank Drafts are issued at all branches of the Imperial Bank.

RAILWAY COSTS SEVENTEEN YEARS AGO AND NOW

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner, Government Buildings, Edmonton.
Many Winter Fed Cattle Being Shipped
Large shipments of winter-fed cattle are now being forwarded from the Province for the Eastern and British markets. Recently several large shipments have been made from Central and Northern Alberta, including the shipment of 250 head of cattle to the Edmonton Stock Yards by the Edmonton Poultry Co., a shipment of 14 cars from the Keesau Ranch at Soudan, north-west of Edmonton, near Grande Prairie, and a shipment of six cars from as far north as Peace Coups, in the Peace River district. The shipment of 144 head was made from Peace Coups by J. A. Dudley, who drove the cattle the steady trip into Spirit River from Peace Coups, the cattle all being in good shape. Another interesting shipment was made recently of a small lot from the farm of J. J. Power in the Clear Hills district north of Peace River. These cattle were fed in the open all winter, which is another evidence of what can be done in agriculture in this district, which to more than 400 miles north-west of Edmonton.

Wheat in the Northland
Herman Treffe, who took second place with his Marquis wheat at the Chicago International Exposition last year, and whose farm is at Lake Sturgeon west of Grande Prairie, and 400 miles north-west of Edmonton, reports that on May 24 his new wheat stood nine inches above ground. He sent a sample to J. S. Stephens, Field Crops Commissioner, of the Government, the past week to prove his contention. Fred Collins, of the University, was also the recipient of a sample.

Shipments of Grain on North Road
Over 500,000 bushels of grain have been shipped out from the North Road, and Great Western Railway the past season of which more than 3,000,000 bushels of wheat, and more than 150,000 bushels of oats. One point, Bon Accord, holds the record of a total shipment of 390,000 bushels. On the other Government-owned line, the Lacombe and North-western, which runs north-west from Lacombe to Hoadley, the total shipments were nearly one million bushels of grain, the wheat shipments alone totaling 650,000 bushels. The second point on this line was Hoadley with a shipment of 219,000 bushels.

Farm Young People's Week
The sixth annual farm young people's week at the University will be held June 4 to June 10. Lectures on agricultural topics, with a program of entertainment, is provided for those who attend, who include young people from the farms between the ages of 16 and 25.

Alberta's Low T. B. Death Rate
According to figures compiled by a prominent American insurance company, Alberta has a very low death rate from tuberculosis in comparison with other countries. Alberta's rate is given as 53.1 per 100,000, Canada's rate being 115.5 per 100,000, while the United States rate is 165.9 per 100,000.

Railway Commission to Sit in Alberta
Sittings of the Dominion Railway Commission will be held in Alberta shortly, when in the case of the Alberta Government, A. Chard, Freight Supervisor, will bring up several matters for consideration, including the proposed millage and coast rates on lumber shipped from saw mills in the north country to outside points. At present this lumber must be sent to Edmonton for milling.

EDITORIAL NOTES

Seed Growers Meet
Great satisfaction with the operation of the Alberta Government seed-testing plant, and a request for its continued operation was expressed at a meeting of the executive of the Alberta Seed Growers Association last week. The management of the plant, and marketing of nearly 60,000 bushels of high class seed under the direction of W. J. Stephens, Field Crops Commissioner, was particularly commended. The plant during the season on hand has 23,233 bushels of Marquis wheat seed, 3,160 bushels of Ruby wheat, 23,073 bushels of Victory oats, 17,492 bushels of Banner oats, and 884 bushels of Barke barley. Prices net to the seed growers ranged as high as \$1.50 per bushel for seed wheat, and \$1.40 net for oats. The deduction to cover all charges of operation and freight charges amounted to only 25 cents per bushel. The executive expressed its appreciation of the work of the Alberta Board of Trade for prizes for winners from Alberta at Chicago.

POPLAR RIDGE

Everyone is rejoicing in the district and expecting a grand crop this year, since everything has such a good look and appearance. Dr. Banton, of Victoria, sold his land at Tannis last week, we understand, to one of our Hibernians. Mr. C. Peterson has been buying more land lately again. Good luck to you, Chris, you have our best wishes.

Percy Legrow is still on the sick list, we are sorry to say.

We were pleased to hear of Leah Staples' return home on the first of May.

Mrs. J. Atkins has rented his farm to Mr. Foster, and has gone to live at Hespero, Alta.

Mrs. Bong has rented her farm to Mr. W. Brown.

Mrs. Bong has been very ill for four weeks, but is recovering this week, we are pleased to hear, and expects to go to the Coast in June in hopes the change may do her good, as she has been on the sick list for five months more or less. As she is an old-timer, our best wishes go with her.

Mr. Madden expects to start working on the new road at Tannis at once.

TITLES ABOLISHED IN GERMANY

In the year 1919, at the congress of Paris, the authors and signatories of the treaty which brought the war to a definite conclusion decided, that from thenceforth the former Kaiser should be known as "William of Hohenzollern." On June 23, 1920, the National Legislature of Prussia enacted at Berlin a law abolishing all class privileges of the Prussian nobility and such titles as "royal highness," "excellent highness," etc., leaving the Government the business of drafting and decreasing further regulations and decrees in connection with the law. These new regulations have just been issued by the Government for the purpose of abolishing the titles of "Kaiser and King of Prussia" and "Kaiser and King of Germany" and "Princess of Prussia" and "Princess of Germany." The former title of "German Kaiser" and "King of Prussia" and "Kaiser and King of Germany" and "Princess of Prussia" and "Princess of Germany" may no longer be used. The Government orders that the ex-Kaiser from henceforth shall be known as "William Prince of Prussia," and his sons as "Princes of Prussia." The title prince, as in his own case, being preceded by their Christian name. Thus the style of the former Crown Prince is henceforth to be restricted by law to that of "Frederick William, Prince of Prussia." It remains to be seen whether these new laws will be obeyed by the monarchist newspapers which still continue to chronicle in print the doings of "His Majesty the Kaiser" and of "His Imperial and Royal Highness the Crown Prince" or by the Prussian parish clergy who on Sunday after Sunday continue to pray for the Emperor and for the royal family, and thus as if no debarment of the Hohenzollerns had ever taken place.

Gibbons was easily over Carpenter according to the reports. The wonder is not that Carpenter lost, but that he has been able to defeat the man he has defeated after having been through the great war in several branches of the French army.

We sympathize with our contemporary in being fined for neglecting to make certain returns under the Workmen's Compensation Act. We had a similar experience a short time ago. We neglected to send in \$149. We now have a criminal record. We suppose if The Advocate had been \$5.00 behind, the whole staff would have been shot.

The anti-church unionists have won at least a temporary triumph. At the Witness points out, it is an odd situation when both sides of the controversy have been willing to admit the supremacy of the state over the church. It may place the church in an awkward position if the parliament with such a present decision to take the same view.

Darn it anyway! This year we have the best crop of dandelions we ever had, and we can't even give them away. We have got a good mind to send in a bill for damages to the Moderation League.

WILL THE U.S. ABSORB CANADA?

According to Professor Scott Nearing, the well-known American pacifist, this country is gradually being taken over by the United States. Mr. Scott Nearing, whose views have ever been what may be termed "peculiar," has made the wonderful discovery that a dramatic struggle is being carried on between British and United States financiers for the domination of Canada. He claims that the American bankers are successful and that, although the political control remains with the British Government, history shows that successful financial domination ultimately brings about political possession, and that, as there is no likelihood of the economic hold of the United States financiers on Canada being loosened, it is only a matter of time when we shall pass body and soul into the grip of the United States. He bases his conclusions upon figures which show that while in 1914 British investments in Canada exceeded \$500,000,000 and the United States investments were less than \$100,000,000, in 1920, the figures read—British \$350,000,000—United States \$400,000,000, while unofficial figures for 1923 show a balance of 25% in favor of the United States. The Professor, however, loses sight of one thing, and that is the rapid recovery of Great Britain as an investor in Canada. The years immediately following the war were undoubtedly America's years, but the fact that London still holds pride of place as the financial hub of the world shows that United States financiers are losing ground.

GOING BACK FOR MORE HEBRIDEANS

Rev. Father MacDonnell Will Bring Out Another Party in August

Ottawa, June 2.—Rev. Father R. A. MacDonnell, managing director of the Scottish Immigrant Aid Society, sails on Friday from Montreal for the old land, and hopes to return on August 2 with another party of between 300 and 600 Scottish crofters for Western Canada. He states that within the past 12 months his society has settled in Alberta about 700 Hibernians, most of whom have been satisfactorily located on farms of their own or are working for other farmers, and they make good settlers and citizens.

Four of the directors of the society, states Father MacDonnell, have contributed \$16,000 to erect cottages on three acre plots of farm land. Fourteen of these cottages are built and occupied, and by arrangement with the overseas settlement office, under the British Empire Settlement Act, the society will be able to erect 100 additional cottages in Western Canada.

SUMMER VACATIONS

A neat little pamphlet has been
prepared by the Canadian Pacific
Railway with a view to assisting the
public to plan their summer vacation
trips. A large number of summer ex-
cursion fares and sleeping car fares
are quoted in it.

The Company has also issued a
compact pocket folder regarding the
"Trans-Canada Limited"—the fastest
train across Canada, giving schedules
and other information.
A copy of either or both of these
will be gladly furnished to anyone
upon application to the Canadian Pac-
ific Ticket Agent. May 28, 23.

HOOT GIBSON
in
OUT OF LUCK

A broncho buster who
almost "busted up" the
navy.

From the moment Sam Par-
due, Texas cowpuncher, took
a flying leap from his bucking
broncho to the deck of an
American warship, Uncle Sam
had worries.

See Hoot Gibson as the fun-
niest gob that ever broke a
ship's discipline. From stoke-
hole to crow's nest he roars
and rampages through the
funniest, fastest, biggest com-
edy ever screened. Don't miss
this rarish, tearing, bounding
romance of land and sea. The
The greatest picture Hoot
Gibson ever made. You'll
laugh until your sides ache.

Also a Two-Reel Comedy
crammed full of hilarious
action.

Are You Proud of Your Home?

A number of property owners, realizing that
there is going to be a demand for good homes in
the near future, are starting to improve their
property with much needed repairs.

A small expenditure along the following
lines will make your home more attractive and
increase its value.

A new veranda, new sidewalk, new fence,
sleeping porch, maple floors, fireplace, or some-
thing along this line will return dividends on
every dollar spent.

We carry all sizes of screen doors. Order
yours today.

What Shall We Give Her

Choosing the "just right" wedding gift is a perplexing problem, isn't it?
You do so want to put your personality into the present; to give some-
thing that possesses that charming touch of individuality, something
that the bride will hold a treasured possession through all the years to
come. We know just how you feel about it. And for you we have a
captivating array of out of the ordinary Gift Suggestions. Gleaming
silver, and sparkling gems await you; clever novelties too. Something
surely to meet the commands of every pure and person.
